# Integrated PBM Results in Double Digit Savings

MIN READ

## Problem

A regional workers' comp carrier had strategies planned with their PBM that the PBM could not operationalize. This locally grown PBM had a long partnership with the client, but they weren't producing the results they wanted. Enlyte later acquired the PBM, which allowed the client to get those solutions in place.

## Solution

The success of the ScriptAdvisor solution sparked the client's interest in exploring Enlyte's bill review program. An integrated program ensures there is 100% clinical oversight on all pharmacy transactions. Consolidating the program made sure each bill is filtered the same way through a consistent process.

## Outcome

The integrated program resulted in increased year-over-year savings—17% increase in pharmacy savings and 9% increase in bill review savings.

**17% increase in pharmacy savings**

**9% increase in bill review savings**

**Having the bill review and the ScriptAdvisor programs integrated gives enormous ease of use.**
