*Recognition Marks Consecutive Years of Stevie Award-Winning Excellence*

**SAN DIEGO, Calif.**—[Enlyte](#) and [Mitchell](#), an Enlyte company, have been recognized by the American Business Association with two prestigious Stevie® awards for excellence. This recognition underscores the organizations' commitment to leveraging their comprehensive data and market expertise to serve the needs of the property and casualty industry.

Enlyte won a Silver Stevie Award for Achievement in Thought Leadership and Mitchell won a Silver Stevie Award for Best eBook in the Publications category as part of the 22<sup>nd</sup> Annual American Business Awards (ABAs). The ABAs are the country's premier business awards program.

Organizations operating in the US are eligible to submit nominations for the ABAs. Nicknamed the Stevies for the Greek word meaning "crowned," the awards will be presented to winners during a gala ceremony at the Marriott Marquis Hotel, New York, June 11. More than 3,700 nominations from organizations of all sizes were submitted this year for consideration in a wide range of categories, judged by more than 300 professionals worldwide.

Enlyte's winning entry for Achievement in Thought Leadership focused on establishing the company as an authoritative and influential industry steward. Enlyte achieved this through interviews, articles and publications, such as the [Enlytened Trends Report](#), since uniting Mitchell, Genex and Coventry under Enlyte in 2021. As one judge explained, "Enlyte's thoughtful execution of a thought leadership strategy has significantly advanced its market position, earning the company an esteemed place in industry conversations. Their comprehensive approach reflected in an extensive suite of thought leadership content and innovative strategies, has enhanced customer engagement and built a strong brand reputation within just two years of its new brand launch."

Mitchell's [Plugged-In: EV Collision Insights](#) report, which also won gold from the [Muse Creative Awards](#), earned a Silver Stevie for Best eBook. Noted one judge, the report "stands out as an exemplary publication that effectively addresses a pressing industry challenge: the rise of electric vehicles (EVs) and their impact on collision repair and insurance underwriting." It combines Mitchell's comprehensive data with in-depth analysis to deliver a quarterly snapshot of the latest trends in EV collision claims frequency, severity and costs.

“While growth in much of the world economy has recovered slowly from the COVID-19 pandemic, the American economy continues to show remarkable resilience and growth,” said Stevie Awards president Maggie Miller. “Our 2024 Stevie winners have contributed to that successful recovery through their innovation, persistence, and hard work. We congratulate all our winners in the 2024 ABAs and look forward to celebrating their achievements during our June 11 awards banquet in New York.”

“We are delighted to have won two Stevie Awards for the second year in a row,” said Alex Sun, Enlyte CEO. “Enlyte addresses the needs of many audiences in workers’ comp, auto casualty and auto physical damage, offering unmatched data and insights to industry constituents. We are proud to help our customers make informed business decisions and honored to be recognized for our hard work and achievements by the American Business Awards.”
